

Key Partners

Industries

- Agriculture
- Aerospace & Defence
- Food, Beverage & Pharmaceuticals
- Industrial Manufacturing
- Mining & Minerals
- Oil & Gas
- Renewables
- Utilities & Infrastructure

Notable Customers

- Senex
- Santos
- Beach Energy
- SA Water
- Power & Water Corporation
- Heathgate Resources
- BHP
- Murray Zircon
- Coopers Brewery
- TWE

Core Expertise

- Electrical / Mechanical / Instrumentation Engineering
- Solar / Battery Design and Implementation
- Project Engineering and Management
- Telemetry Solution Design
- Variable Speed Drive / Power Quality Selection Support

Competitive Edge

- Bespoke Solution Fabrication: Custom solar/battery skids, chemical injection skids, and more
- Design & Project Engineering Excellence
- Comprehensive Product Technical Support: Pre and post-sale
- Local Stock Holding for Quick Deployment
- ISO Certifications: ISO 9001, ISO 14001, ISO 45001.

Technical Capabilities

- Solar - Battery Storage Solutions
- MCC / Distribution Panels up to 630 Amps
- RTU / PLC Packages & Control Panels
- Remote Solar Powered Camera / Telemetry Skids
- Variable Speed Drives (VSD) Packages / Skids

Centralian Controls is a technical sales and service organisation, established in 1987, specialising in process control, industrial automation equipment, and packaged solutions.

Our capability extends to the design and construction of a wide range of complete / pre-fabricated systems and packages, utilising in-house engineering knowledge and an extensive workshop facility.
