- Integrated client-centric approach aligned with defence priorities, enhancing readiness, efficiency and sustainability
- Comprehensive capabilities in data security, data governance, cloud integration, energy efficiency and green practices
- Proven capabilities in HR & Payroll managed services, powered by TRC.co

## ENERGY & DEFENCE

**Energy Capital Global:** ADC's partnership with ECG ensures businesses have the expertise and support to achieve energy efficiency and sustainability goals. A committed player in renewable energy, ECG simplifies the transition to clean energy with expert-driven solar and battery storage solutions.

**SCx Solutions,** a strategic ADC partner, specialises in advanced fluid dynamics analysis using Hexagon Cradle CFD software. Based in Japan, the company now operates globally, accelerating defence, aerospace and advanced manufacturing strategies with future-proof technologies and delivering a lasting competitive edge for allied nations.
