

20 Years

Australian Owned, Dedicated Systems is a Leading Supplier of Embedded Software components & tools, COTS Hardware & Services to Defence Primes & SMEs since 2003.

Our aim is to reduce customer's risk, improve outcomes and lower total cost of ownership by providing best-of-class products coupled with a team of highly experienced engineers.

PRODUCT FOCUS

- Data Acquisition Systems
- Real-Time Middleware
- Hardware-In-The-Loop Simulation (HIL)
- Static Application Security Testing (SAST)
- Embedded Systems Hardware
- Avionics Bus 1553 / 429
- Spatio-Temporal Data Analysis
- Safety Critical Software
- Electronics cabinets and racking

CONSULTING SERVICES

- Systems Integration
- Software Engineering
- FPGA Firmware Development
- Assistance with Legacy Upgrades
- Advice on Obsolescence & Risk
- Speedgoat/UEI HIL Assistance

DOMAIN

- Naval Systems
- Avionics & Space
- Imaging Radar
- Supply Chain Security
- Electronic Warfare
- Mission Systems
- Critical & Autonomous Systems
- Cyber Security

DISCRIMINATORS

- 100% Australian owned and operated
- Strong focus on supporting complex systems integration
- Product support is delivered by senior local engineers backed by our international supplier network

KEY BRANDS:
