Controls

Company Overview

centralian.com.au

Who we are

Established in 1987, Centralian Controls provides innovative products and solutions, specialising in process control and industrial automation equipment.

Centralian Controls is the local partner or authorised representative for a number of Industrial Automation and Controls manufacturers providing local technical support expertise and stocking.

Our capability extends to the design and construction of a wide range of complete / pre-fabricated systems and packages, through collaboration with business and utilising in-house engineering knowledge and an extensive workshop facilities.

Facilities

- 4,000m² facility including office, workshop, stores and warehousing.
- Secure, monitored facility.
- Dedicated electrical workshop.
- Dedicated mechanical workshop.
- Dedicated clean room for instrumentation activities.
- Heavy vehicle access and loading area for transport operations.
- 1 x 7 tonne / 2 x 3 tonne / 1 x 2.5 tonne forklift.
- Workshop compressed air and instrument air systems.
- Welding bay with fume extraction.
- Bridgeport mill / Lathe.
- Bead blaster / Spray booth.
- Electrical test equipment.

Resources

- 
- 45+ full time employees.
 - In-house engineering expertise including
 - Mechanical / Electrical engineering.
 - Solar Design
 - Electrical / Mechanical technicians.
 - Instrumentation / Radio technicians.
 - Apprentices – Mechanical trades.
 - Trades assistants.
 - Project engineering / management
 - Hazardous Area (HA) installation and inspection services.
 - Drafting / 3D modelling capability.
 - Project procurement and administration.

Packaged Systems and Solutions

- RTU / PLC packages and control panels.
- VSD / Motor Control packages.
- Switchboards / Motor starter packages.
- Solar power and UPS systems.
- Wellhead Metering & Control Skids
- Cathodic protection systems
- Solar Power Remote Camera Monitoring Systems
- Solar Powered Air Compressors (SPAC's).
- Chemical injection packages
- Instrument Gas systems / packages.
- Instrumentation / gauge panels
- Custody Metering Skids
