

Global Climate & Safety Systems for Defence and Beyond

CAPABILITIES AND COMPETITIVE STRENGTHS

- **HVAC-R Systems:**
Airconditioning, Ventilation, Chilled Water, Refrigeration, Heating/Cooling, Air Filtration, CBRN Protection
- **Fire Protection:**
CO₂ and Water Mist Systems
- **Experience:**
30+ years providing OEM support to RAN & RNZN
- **Support Network:**
Local workshops in SA, WA and NZ backed by a global engineering team.
- **Through-Life Support:**
OEM spares, upgrades, obsolescence management, and maintenance.

KEY DEFENCE PROGRAMS AND PARTNERS

- **SEA1180 OPV – CIVMEC/LAUS:**
Design, manufacture, integration, commissioning & STW of HVAC, ventilation and 320kW chilled water systems for six vessels.
- **ANZAC CLASS PSR – BAE SYSTEMS:**
Design & STW of 1.1MW chilled-water plants, provisions for cooling and ventilation systems for eight frigates.
- **NZDF ANZAC PSU:** 1MW chilled water systems for two vessels.
- **ONGOING ILS & SUPPORT:**
Babcock (AU/NZ), CAS-G, Thales, WAMA, NZDF

COMPANY OVERVIEW & CERTIFICATIONS

Noske-Kaesar Marine Australia (NKMA) – the Australian subsidiary of the global Equans Marine Group – provides OEM HVAC-R, CBRN and fire suppression systems for naval surface and submarine platforms.

We support RAN, RNZN and Defence Primes with design, manufacture, integration and lifecycle ILS. Our teams operate from Adelaide SA, Henderson WA, and Auckland NZ, supported by Equans' international engineering and supply-chain network

ISO 9001 | ISO 14001 | ISO 45001 | DNV-GL
