

NYLASTEX[®]

CAPABILITY STATEMENT

ABOUT US

Nylastex is a South Australian, family-owned company with over 30 years of experience in precision manufacturing. Our legacy is built on a foundation of manufacturing excellence, quality, precision, collaboration, and innovation. These core values drive our unwavering commitment to delivering exceptional products and services to our customers.

With a dedicated team of skilled professionals and state-of-the-art equipment, we possess the expertise and resources to manage your

project from inception to completion. Whether it's a one-off prototype or a large-scale production run, our team works collaboratively with you to ensure every detail is meticulously executed to meet your exact specifications.

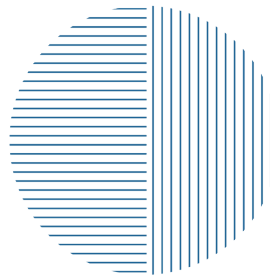

Quality is at the heart of everything we do. Through our partnership with Australian Metrology and Calibration (AMC), a trusted member of the Nylastex group of companies, with NATA Accreditation, we can provide customers with precise inspection reports to meet their quality requirements.

OUR KEY INDUSTRIES

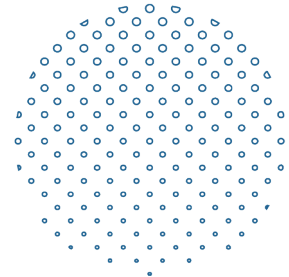

DEFENCE

A trusted partner in defence

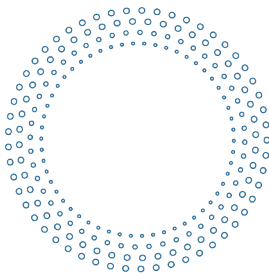

AGRICULTURE

Collaborative solutions for sustainable farming

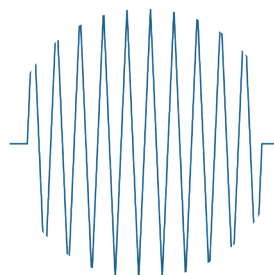

MINING

Dependable, cost-effective advanced manufacturing

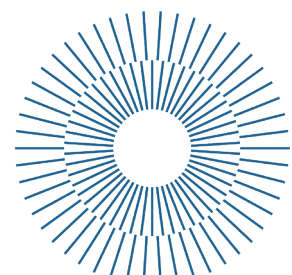

AEROSPACE & SPACE

Looking to the future

MEDICAL

Precision, accuracy and quality verified

ENERGY & RENEWABLES

Committed to advancing renewable energy

CAPABILITIES

- Project Management & Design
- Precision CNC Machining
- Rapid Prototyping
- Assemblies & Sub-Assemblies
- Low Volume Machining
- High Volume Production Machining
- Material Sourcing
- Metal Finishes & Treatments
- Paintings & Coatings
- CMM Scanning
- 3D Printing
- Reverse Engineering
- Fabrication
- Quality & Inspection
- Through Life Support

KEY PERSONNEL

- Geoff Philips - Director & Chief Technical Officer
- Adam Philips - Chief Executive Officer
- Heath Jenner - General Manager

ACCREDITATIONS

- ISO 9001:2015 – Quality Management System
- ISO 45001:2018 Occupational Health and Safety Management System
- DISP Level 1 Membership
- NATA ISO/IEC 17025

KEY PARTNERS

FACILITIES

- Factory 1
 - Edwardstown Precision Manufacturing Facility
 - 2,500 sqm
- Factory 2
 - Edwardstown Assembly & Warehousing
 - 800 sqm

SIGNIFICANT PROJECTS

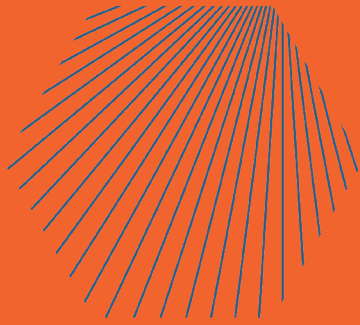

Project: Agriculture
Precision components and assemblies for harvesting equipment and specialised equipment for processing plants.

Project: Defence
Precision machining and supply of critical components and assemblies to Defence Primes.

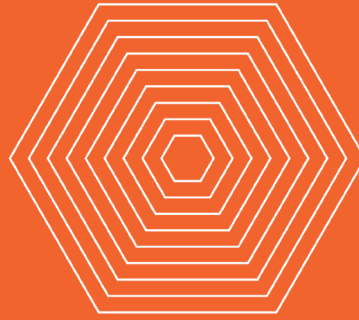

Project: Medical
Special Purpose Machinery designed to produce high-precision and regulatory-compliant medical devices and components.

Project: Tooling
Designing, producing and maintaining high-precision, durable Moulds of complex plastic components across diverse applications.
